

July 23rd, 1940.

Dr. Arthur Childe,
R.C.A.M.C.
No. 1 Canadian Neurological Hospital,
Post-Office Base, Ottawa, Ont.

Dear Arthur:

I was delighted to get your letter of the 3rd together with the Minutes of the Officers Mess. We will keep those minutes, of course, in the Unit file. Many thanks for the message of thanks from the Mess to the donors of the Montreal Fund. I am passing it on to them and we are issuing a second bulletin of the activities of the Unit.

I am sure that I express the feeling of the Auxiliary Committee of No. 1 Neurological Hospital when I say that we are anxious that Col. Cross should feel quite free to contribute to your needs - intellectual, spiritual, physical, and pleasurable if those adjectives can all be used. However, I suppose that inasmuch as you have time for profanities there may come a time when you will be rolling in wealth! We think and talk of you all very often, and feel a certain sense of satisfaction in the fact that you are being useful, however, useless we may feel ourselves to be. I suppose you have all learned how to ride on the left side of the road by now. Good luck to you all. I shall be writing you a personal letter before long.

Yours sincerely,

WGP/HO
