Dear Dr. Penfield:

Herewith a few items relative to the doings of the past six weeks.

With last bulletin (1st June) I mentioned that funds were again low and would be glad of a further remittance if convenient. I trust you received the bulletin O.K.

We wish very fervently that you could have come to join us before this.

All the Officers are going in alternate groups to attend the British Neuro-Surgical Association to-day and to-morrow.

All send reassurances of affection and wishes for your health and that of Mrs. Penfield and all special friends.
