To discuss E J.P.

Dr. Wilder Penfield.
3801 University Street,
Montreal, Canada.

Dear Dr. Penfield :

I had your letter of May 9th two or three days ago. I was glad to hear. Thank you for the renewal of magazines for us. The account came to me here and I was about to write you as to what the understanding had been. I believe we have all the various ones that most interest the staff.

You mention the special fund and, as before intimated, I have a substantial balance out on justifiable loans - which are safe as I have control of the pay, but which are sometimes slow in repayment. This cramps the availability of the fund and I should be glad of a further advance, such as the last, while loans are called in. I may say I have clamped down on further loans and will gradually deduct from pays to resolve the outstandings.

It is trusted that your personal health is as always and that any apparent but unimpairing indications will soon be accepted by Headquarters, so that matters may eventuate.

With sincerest sentiments conveyed from all here, as well as personal.

Ever yours,

(C.E. Cross.) Lt. Col. RCAMC.
