

Lt. Col. Colin Russel

R.

May 17th, 1941

Lt. Col. Colin Russel,
#1 Neurological Hospital, RCAMC,
Canadian Army Overseas.

Dear Colin:

I was delighted to get your letter of the 27th of April. I can understand altogether your point of view in regard to your own activity in the next few years. You have probably received two letters from me since you wrote that letter. I think perhaps you misunderstood whatever suggestions were made in regard to either Arthur or Don going over. I think it would be quite obvious that Major Hyland would be senior to them, of course.

I cannot make anything out of what disposition will be made of me as far as my coming over is concerned. The whole thing will be taken up on the 1st of July. In the meantime I am in splendid shape. I seem to remember vaguely a Dr. McKeith at Oxford. He was a genial fellow it seems to me, but I cannot remember very much about him. An Australian, I think.

I am forwarding a copy of a talk that I gave at the Annual Meeting the other day. I wish you and Bill would read it over and write practical suggestions of other subjects you think we might work on. How much use would an electrograph set up be at #1 Neurological? What do you think its practical role is? I have heard indirectly that you have been sending cases to Oxford to have electroencephalograms done.

Life goes on here and we miss you all very much,

With my love,

WGP/AD
