

June 18th, 1941

Dr. James Bordley,
Managing Editor,
Bulletin of the Johns Hopkins Hospital,
The Johns Hopkins Hospital,
Baltimore, Md., U.S.A.

Dear Dr. Bordley:

Many thanks for your letter of June 16th.
In case it is decided to forward the Bulletin to #1 Neurological,
it should be addressed to #1 Neurological Hospital, RCAMC, ^{ood}
~~Canadian Army Overseas~~, c/o Base Post Office, Ottawa, Ont.

In a recent letter from Lt. Colonel Cone he
said that the Johns Hopkins Bulletin was one of the journals
they were missing most. They have now established a small
animal experimentation laboratory which is located quite
conveniently in a former box stall, and in the box stall next
to it is a pathological laboratory, and, curiously enough,
beyond the pathological laboratory is a chapel, also in a
box stall. It seems that the horses were treated "de luxe".

Yours very sincerely,

WGP/AD
