SUPERINTENDENT

January 10, 1936.

Dr. Wilder Penfield  
Montreal Neurological Institute  
3801 University Street  
Montreal, Canada.

Dear Doctor Penfield:

As I am now permanently located at the Neurological Institute in New York, your letter of December 24th was forwarded to me from St. Elizabeth's Hospital. In reply I may say that your comprehensive plan for research was presented to the Committee who received it favorably. There were no objections at all to the plan, in fact, they were impressed by the value of this type of approach. For several reasons, some of the original ideas and plans of the Committee had to be changed. They finally decided to start work by splitting up the amount of money, which was smaller than the amount estimated, into small grants to help with a variety of investigations none of which, as a matter of fact, exceeded \$5,000. The subsidizing of some of the researches of larger dimensions was postponed.

As there are strong possibilities that funds from other sources will be put into this work in the near future, -- I have been approached by two already -- if you have no objection I should like to consider your application as still being in force. I have it in the foreground awaiting the first opportunity to act.

Very sincerely,

*Nolan D. C. Lewis*

Nolan D. C. Lewis, M.D.
