

24th December 1935.

Dr. Nolan D.C. Lewis,
Research in Dementia Praecox,
50 West 50th Street,
New York City.

Dear Dr. Lewis,

On July 15th 1935 a formal application was made to the Committee for Research in Dementia Praecox through you. I have long since given up hope for any positive results but have rather expected some notification of the action of the Committee. Do let me know what was done.

Yours very sincerely,

WGP/HL.
