Dear Dr. Penfield:

Your letter of February 14, together with Dr. Jasper's of February 19, was received during a brief interval between field trips. I am leaving tonight for the West to be away for about ten days, but as soon as I get back I plan to study the material which you have sent in connection with your application for a grant in aid of research on the temporal lobe.

Sincerely yours,

*Robert S. Morison*

Robert S. Morison, M.D.
