

Application refused

Ford Foundation

1955

Refused

20th. December, 1955.

Mr. Bernard Berelson,  
Director,  
Behavioral Sciences Program,  
The Ford Foundation,  
477 Madison Avenue,  
New York 22,  
N.Y.

Dear Mr. Berelson,

Thank you very much for your note of December 15th. We will keep a sharp look-out for the public announcement that you mention.

The recent educational grant by the Ford Foundation has aroused a great deal of extremely favorable comment here at McGill, not only for the magnitude of the grant, but for the foresight and judgement manifested by its provision. I am sure this type of support will pay the biggest possible dividends to the American people. I wonder if there are any plans for this type of help for the Canadian Universities.

We have just had a card from the von Grunebaums telling about a Christmas party the Dorfman's have just held for the remaining original inhabitants of 6019 Ingleside. There was apparently much reminiscing about "the good old days".

With my very best wishes for the holiday season,

Sincerely yours,

Theodore Rasmussen, M.D.
