

S.S.BREMEN.

COPY OF LETTER TO DR.MARTIN.

August 21st 1931

Dear Dr. Martin,

I have asked Miss Lewis to send you a copy of my letter to Mr. Chenoweth and a copy of the outline. There are doubtless errors in it and I've no idea whether \$4000 per room is adequate for the laboratories we want, or not. It seems to me this scheme has the greatest hope of success although it is certainly not perfect. The Institute must be near the operating rooms and should be close to the Medical Laboratories if that were possible.

Best wishes,

Yours,

(Signed) Wilder Penfield.
