

2nd July, 1932

Mr. John F. Bush,  
Presbyterian Hospital,  
New York. N.Y.

Dear Mr. Bush:

I expect to be in New York on Thursday with a Montreal architect who is planning to build an institute for us here.

I am very anxious to have him see some of the features of the Presbyterian Hospital. Will we be able to see the plans and look about at certain features of the building on Thursday afternoon?

I was delighted to see that you feel that no home is complete without a copy of 'The Cytology and Cellular Pathology of the Nervous System'. I have no doubt it would be especially good for ~~feeding~~ babies.

*Leithy.*

With best regards,

Yours sincerely,

WGP/WS
