RE: NEUROLOGICAL INSTITUTE, MONTREAL

Dear Dr. Penfield:

We are now making details of lettering for names to be painted on wall around Reception Room, and are enclosing sketch showing the locations best adapted for spacing names to be inserted, keeping in mind the nationality of the subjects.

You will note that Space (#9) over entrance is left blank, and that we have dropped the first names in combining Nissl-Alzheimer.

Names #4,5,6,7 and names 11,12,13,14 can be reversed, if you prefer.

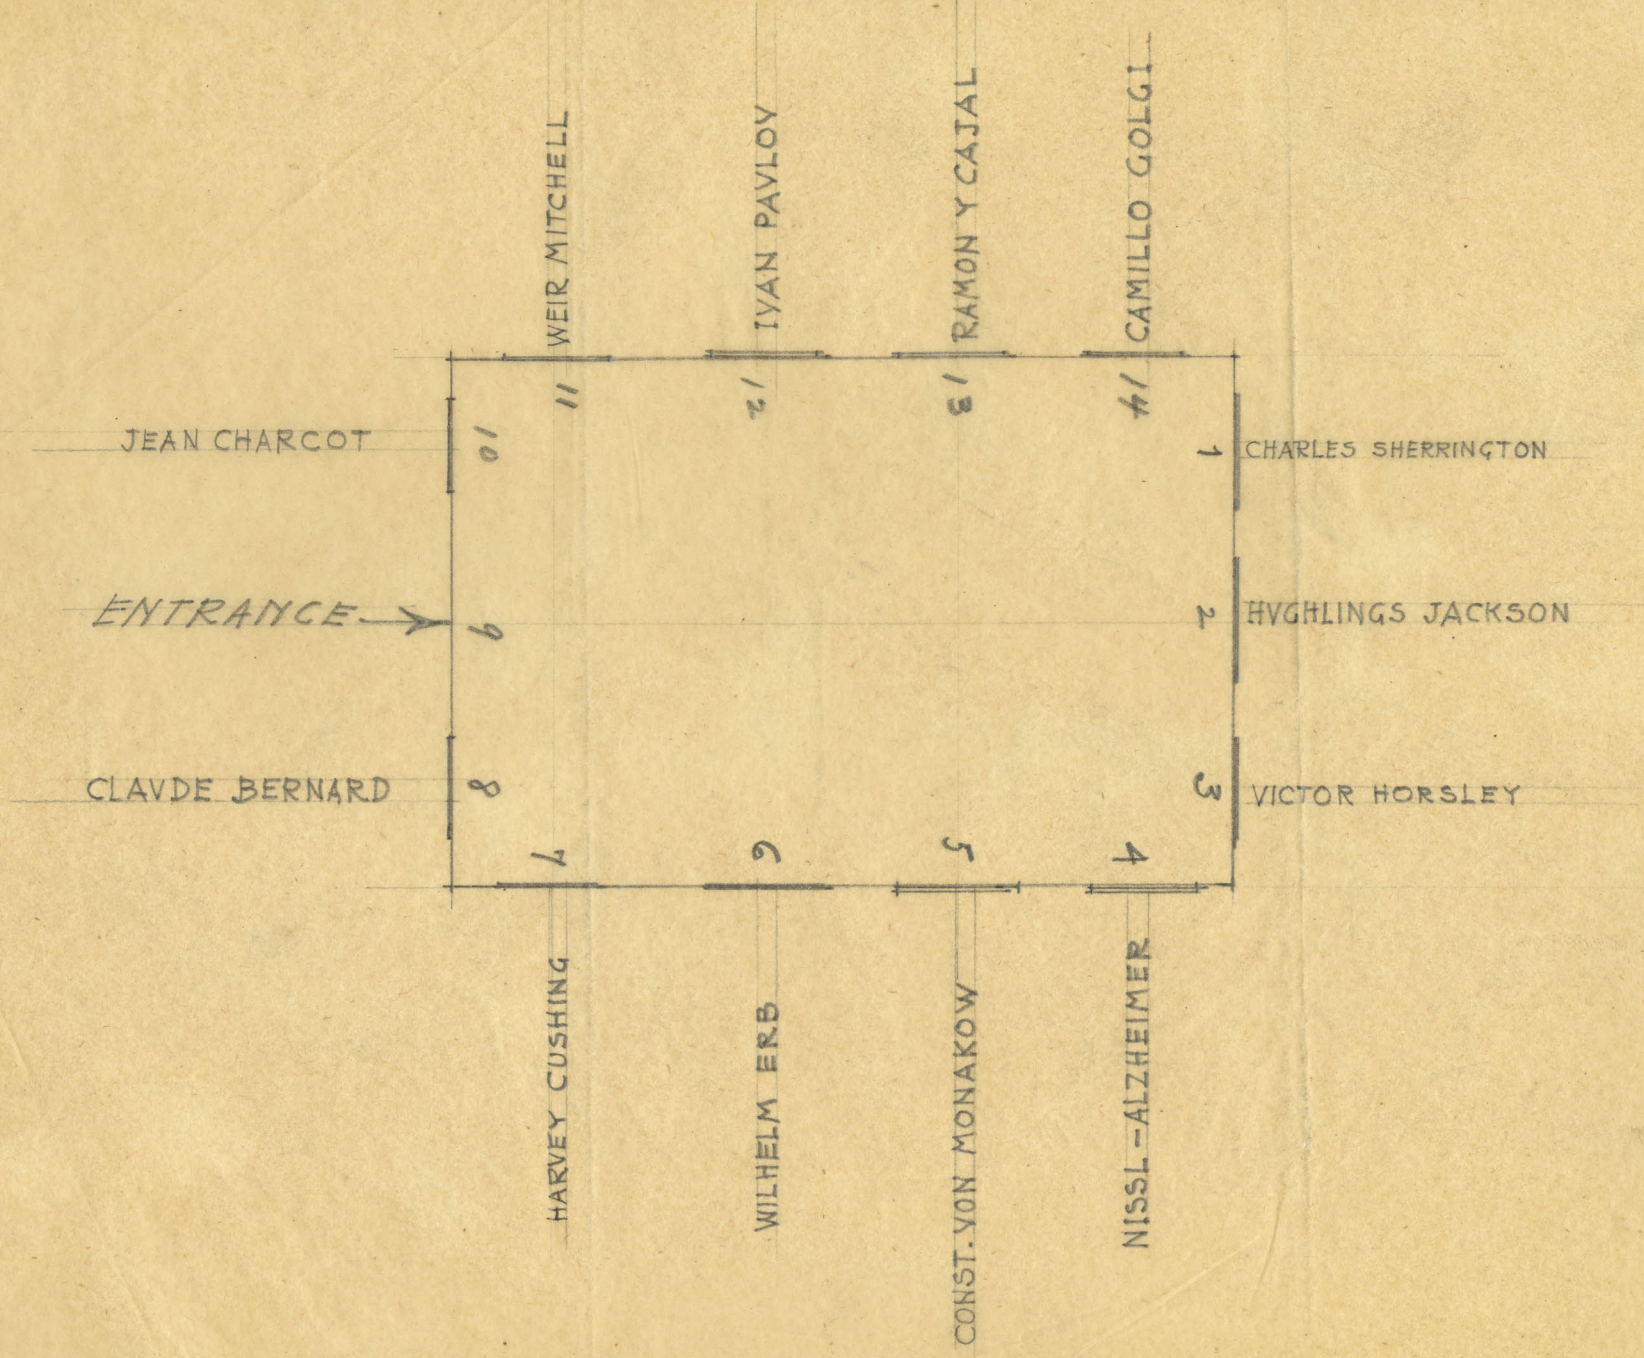

You will also note that Dr. Wier Mitchell and Dr. Harvey Cushing are placed over the side entrance.

Will you please let me have your comments on this distribution.

Very sincerely yours,

Barnet Phillips
