

61 BROADWAY
NEW YORK

April 14 1932

Dear Penfield:—

Just a note of entirely personal congratulations that the project has gone through the Board successfully - building and endowment (of \$50,000).

It is quite accurate to say that what the Board expects of you and thinks of you made a big difference. And I'd add what I said before - don't feel obligated to any smaller units than the human race. You have a grand chance and my best wishes. Speaking as a midwife I was too tired last night to write but joy cometh with the morning.

Yours faithfully

Alan Gregg.
