

August 24th 1933.

Dr. Alan Gregg,
The Rockefeller Foundation,
61 Broadway,
New York City.

Dear Dr. Gregg,

Has the Rockefeller Foundation a shield or
any heraldic emblem?

Thanks to the vagaries of Scotch Baronial
architecture there is plenty of opportunity to work
things of that sort into the design of the building.
I should like very much to be able to express the
share of the Rockefeller Foundation in the undertak-
ing architecturally. If Mr. John D. Rockefeller has
a family crest we could use that if you think best.

I believe arrangements are going forward for
the cornerstone ceremony. If you are able to come up
we should be delighted to have you stay with us.

Yours very sincerely,

WGP/MD

*We could use the
world crest that
appears on some
publications if you
like*

*see reply under
Carter.*
