CABLE ADDRESS:

ROCKFOUND, NEW YORK

July 6, 1934.

Dear Doctor Penfield:

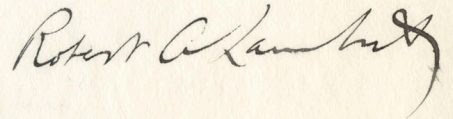

I am enclosing copy of the Foundation's letter of September 29, 1932, to McGill University containing the liberalization-of-gift statement I referred to in our talk on Wednesday.

I want to thank you again for so generously giving over your day to me. I enjoyed the visit ever so much.

According to a letter received this morning Gregg expected to leave Paris on July 4 for England and Scotland, and to sail on July 11 from Plymouth. He will therefore miss Doctor Martin. My letter and cable, however, will give him full information about your situation. I expect a reply from him early next week.

Yours sincerely,

Doctor Wilder C. Penfield

P.S. Since the above was written your letter of July 5 with financial statement has come. This, I am sure, will answer any question that may be raised.
