My dear Wieden

The memories of ~~the~~ and
of the opening of the Institute are
all very perfect; it was a rare
privilege to have been thus invited
to share in the joy of your achievement
and I shall always cherish the
experience.

Of other things I shall write
soon but I ~~am~~ just wanted you
to know what is in my heart.

Dr Lushington stood the trip back
very well and wrote letters all day
in his office despite the 5:30 arrival.
He was generally pleased by everything
- and well he might have been.

Yours ever affly

John Dalton

P.S. Lucia and I were married eleven
years ago today - It seems like a
minute my love to Helen.
