

10th November 1934.

Dr. Hugh Auchincloss,
Presbyterian Hospital,
168th Street and Broadway,
New York City.

Dear Hugh,

I wonder if you ever received the invitation which we sent you to come to the opening exercises in Montreal here.

We opened the Neurological Institute here on September 27th and I was very anxious to have you there for reasons which you will understand better than anyone else. As we never received any reply I have been meaning to write to you for some time to make sure whether or not the invitation ever arrived.

We are all well. Do give our love to Frances.

Yours sincerely,

WGP/HL.
