Dear Penfield,

You will find enclosed a photograph of Pavlov in semi-profile. Please recopy it and return the original to me. You will find another portrait of Pavlov in semi-profile in his "Lectures on Conditioned Reflexes", translated by W. N. Gantt, International Publishers, 1928, p. 368. There is also a medal in honour of his 75th birthday, showing Pavlov in profile, which I sent to Dr. Maude Abbott some time ago for the Museum of Medical History. Neither Dr. Andreeff nor myself consider the portrait on the medal good enough.

I hope this will give you the desired information.

With kind regards,

Sincerely yours,

B. P. Babkin.

Encl.
