

18th September 1934.

The Honourable Athanase David,
Cabinet du Ministre,
Montreal.

Dear Mr. David,

Will you do me the honour of lunching with me at the University Club at one o'clock on Thursday, September twenty-seventh, to meet Professor Cushing of New Haven and Dr. Holmes of London, the Foundation Lecturers.

We can go from there directly to the formation of the academic procession for the opening ceremonies of the Montreal Neurological Institute.

May I take this opportunity of speaking about the beds for chronic neurological patients which you were generous enough to suggest might be placed at our disposal at the Sanatorium Prevost. If that arrangement is to hold good will it be appropriate for me to mention it in my address at the time of the opening?

I am looking forward very much to hearing what you will say about neurology and public health.

Yours very sincerely,

WGP/HL.
