

EN ROUTE
THE LIBERTY LIMITED
PENNSYLVANIA RAILROAD

Tuesday, the Oct 14.

Dear Nick and Helen:

I'm perfectly
alone - just writing this on
Saturday train. Sam Bill
this morning and we talked
about a place on Major. Bill
thinks it a fine idea and
says he's in on it. Right now
he is so full of the details
of his store-building program
that he hasn't much else in
his heart or head - but a
place - Canada where we could
all get together at times just
filled his idea of something more
whole. He didn't have time to
work out details or plans - which
don't help you, Nick. So I must

is tell you again if you
 get another and better way of
 handling this whole plan of
 yours - do it. Your plan is
 much more important than
 ours. We are so far away and
 can see it at the most only
 marks of the year whereas it
 is before and months to you.
 If Francis Bole and I do
 take over the record from me
 should give you an opinion
 based on us and our return
 to sell it back to you if anything
 happened to us.

I have said only this
 to Francis more than his
 statement to me that he would
 buy there too. I hope to see
 him this winter.

Man and children fine.
 Hope you are all fine -
 Paul.
