Dr. Wilder G. Penfield,
c/o Royal Victoria Hospital,
Montreal,
Canada.

Dear Wide:-

Please do not think that my telegram, asking if you had received the registered letter, meant that I expected an acknowledgment from you. The point was that I sent the letter registered and requested a receipt from the Postal Department and to date I have not yet received the receipt. That was what gave me considerable concern. If you got the letter safely that's all that counts and the postal receipt can go hang.

I hope you all have been having as delightful weather in Montreal as we have been having in Washington. The leaves are just beginning to turn red and brown and gold. I wish we didn't have to plug along constantly to satisfy more or less selfish ambitions and needs. Last night the children wanted to see some of the old movies, and we put on the movies from Clear Water Lake and from our New York party at your house. It made us really homesick. I suppose your children have grown as fast as ours. How we would like to see you all.

I have a business engagement in Boston and hope to see the Halls within the next two weeks. Mae is planning to go with me. I wish I had some legitimate excuse to go to Montreal.

Love to you all from us all.
