

Monday Ev., Oct. 5, 1930.

Dear Wade and Helen:

Please don't think we have forgotten our little dream visit with you and the lake and the farms. The pictures have made a great hit with the children - the boat just about started a stampede for Mazog. Barbara wants to be sure of horses. Bob hopes there are Indians. Paul Jr. wants the boat. Mae and I want to be near the Penfields. I expect to see Bill and Alice this next weekend and Francis and Pupella shortly after that. In the meantime my finances are in bad shape - not alarming

team and came home tonight
with arm out of shape. We
think it nothing, but X-ray for
him tomorrow. Football was fine
for son but not all pleasure
for Dad and Mother.

Bob is flasing an every
team he can get on but his
chief trouble is keep his clothes
on. Tonight he came home
looking like Robert Cruss after
the third year out.

Barbara is growing so fast
and she really is a great joy
even with all her venturing.
If Mae reads this she will
immediately say: "now what do
you mean by that" and I'll
have to tell her that to Barbara
the world is just a big adventure
just around the corner and she is

but you have no idea how
bad business is down here. I
have plenty of work - more than
ever but must get for us pay
and must of it for pay sometime
in the future. So "Father" is
humping just a bit now. I
believe a year or two will change
the future for us but right
now it's hard sledding. Frankly
we do want to locate a summer
place near you but if your
finances are such that you
don't see your way clear to
write for me - please don't feel
one minute's hesitation. We can
probably find something nearby.

The children had a grand
summer. Paul Jr is living over
again almost daily his experience.
They all are fine. Paul Jr. is
playing football on Friends school

important to get there. The
Trains are fine and so are we
all. How we did enjoy seeing
your family! And what a lovely
family it is! I just
achieve to have the children know
each other better.

I'll write you later -
the month after I see Bill
and Alice.

Much love to you all
from us all

Paul
