My dear Penfield

I left town immediately after
receiving your ^{second} wire, & have now returned but find no
word about your bringing Cone. When do you plan to come?

I may explain too re your appointments.

This is only made official at the regular meeting of
the Governors in a week or two - but the Principal
Sir Arthur Currie consents for the university &
Meredith the lordly president of the R.V.H. also
approves. The rest is mere formality.

We have everything fixed here re finances &
space & equipment. One of the other Governors of

M^cGILL UNIVERSITY
MONTREAL

FACULTY OF MEDICINE
OF THE DEAN

with all kind regards & cheerfulness

Sincerely yours

C. M. Martin

The R.V.H., volunteered to me to personally
pay any extra involved in equipment necessities
so you can all be well supported.

I may wire you today asking for a telegram
that I can tell the Faculty tomorrow night
about your coming.

The General Hospital have sent me a copy of the
minutes passed at their executive committee
meeting offering you all the privileges of the
clinics & material -

So the goose hangs high.

Please tell Mrs. Peapfield she will be very
welcome in all our homes - all the
more so as she really made the decision!
