

Dear Dr. Martin,

I am enclosing a form which I am told should be executed by myself and sent to the Rockefeller Foundation.

Thank you very much for your letter and your offer of help. With that help and with the fellowship I can make a six months trip by using a little surplus which I have from practice.

I have been informally told through Palmer that the fellowship will be granted to me as soon as the necessary papers are made out and I believe Dr. O'Connor has talked with Dr. Vincent about it. We shall sail ^{in Germany March} on the 21st of ~~October~~ and reach Montreal about the 20th of September.

With best regards,
