Dr. Wilder G. Penfield,  
The Presbyterian Hospital,  
Madison Avenue and 70th Street,  
NEW YORK CITY.-

Dear Dr. Penfield,

I have made enquiries of the authorities at both hospitals with reference to the opportunities that may be afforded Dr. Cohen to do work in the laboratories and clinics at either hospital or both. I am glad to say that they have both been delighted to think of the prospect of his being an additional worker in association with you, and they will be glad to afford him facilities and privileges in the laboratories and in the clinics to do any work which you may feel inclined to suggest for him. I can assure you that there need be no concern in regard to bringing him here should you wish to do so.

Sincerely yours,

*C. J. Martin.*
