

March 26, 1916
Military Hospital
Western Heights - Dover

Dear Davie:

Would you mind doing a couple
of things for me? Will you
^(Merton pointer)
see Alfred and tell him to stop
sending my mail to France
as I shall not go now.

Have him send it here to —
Military Hospital - Western Heights Dover
I hope you got my wire and
informed Madam Steele and
some of the people there who might
be interested - Hayward, Pearce, Osler.

I see in the morning paper that I have
concussion of the brain but no one
has dared to suggest that it

me yet. As for the Baldwins I'm not
sure. She spoke of having met Sir Wm.
I was with her at the time of the explosion
and crawled around on the wreckage
to find her. I found one young fellow
who had been talking to her also and
dragged him out but the woman
I found under him was dead and
I did not recognize it as Miss Baldwin. Some
one has since told me it was she which
another American assured me that he saw
father, mother & daughter get on the boat which
went to France. He claimed to know them and
so I wired you as I did. I thought my leg was
fractured and so put on a make shift splint
on the boat. But now it seems doubtful. It
was perhaps only dislocated. It is in a good
splint ^{now}. The other ankle is sprained. I hope
to be out of here in a couple ~~days~~ weeks with luck.
Will you send me my Howell - It is on my desk. Also
if you have a Cushman which is not working you
might send it. They are going to fit some glasses
to me here in the hospital as mine were in a coat
which when last seen was in the arms of some
woman. Good luck to you - don't work too hard
Pss.
